The bank statement for the week shows a gain to the specie reserve of \$4,312,700; a sum which very nearly corresponds to the \$4,400,000 which the Sub-Treasury, during the same time, disbursed for call bonds and specie. The week's movement results in an increase of \$2,008,075 of the surplus reserve, leaving it now \$7,018,225 in amount, or 27.5 per cent of the total deposits against 27.5 per cent last week, and 28.1 per cent of the remaining currency deposits, against 27.5 per cent last week, and 28.2 per cent of the total deposits of 1877.

the advance in price of Western Union to 100, the highest figure for the stock ever reached. It appears that at the uptown hotels and clubs last evening renewed assurances were given out that a division of stock was imminent, and 99, or 1 per cent above the official closing price, was freely bid. With everything so admirably arranged for it, it was not surprising that the market for the stock today opened excitedly. Sales were made almost simultaneously at all the figures between 98 1/2 and 99, followed by sales up to 99 1/2, and then to 98 1/2. Afterward there was an advance to par (100), at which 1,500 shares were recorded as being sold. After this the stock was feverish, selling down to 98 1/2, and then recovering to 99 1/2, the price of the scrip dividend, the day has developed nothing either confirmatory or contradictory of previous reports. Some of the company's officials continue to assert that nothing of the kind has been thought of, while others, when questioned, look wise and shake their heads as if burdened with some momentous secret, which might escape if their lips should open.

The remainder of the market generally was feverish, chiefly following the fluctuations of Western Union, with a marked firmness for the granger stocks. Like Shore was largely purchased in the forenoon, up to the price of 60 1/2, and it is quite likely the story told at 60 1/2. There was less board of the "good business done in coal," and it is quite likely the story told at 60 1/2. There was less board of the "good business done in coal," and it is quite likely the story told at 60 1/2.
